Year 4 · White Rose · Lesson 1

Add and subtract 4-digit numbers

w/c 19 October 2026 · OnMaths · Created by Mr Ali

Today I will learn to...

Goals

1. Add 4-digit numbers using the column method

2. Subtract 4-digit numbers using the column method

Do now: retrieval practice

4 mins

1. What is 1 000 more than 3 456?

   4 456

2. Round 2 748 to the nearest 100

   2 700

3. What is the value of the 6 in 6 205?

   6 000

4. Work out 47 + 36

   83

Objective 1

Add 4-digit numbers using the column method

Key idea

Learn

!

Line up the digits: thousands, hundreds, tens, ones. Start with the ones. If a column makes 10 or more, exchange 10 for 1 in the next column.

Objective 1: Add 4-digit numbers using the column method

I do: example 1

I do

Work out 3 245 + 1 432

1. Ones: 5 + 2 = 7
2. Tens: 4 + 3 = 7
3. Hundreds: 2 + 4 = 6
4. Thousands: 3 + 1 = 4, so the answer is 4 677

I do: example 2

I do

Work out 2 568 + 3 274

1. Ones: 8 + 4 = 12. Write 2, exchange 1 ten
2. Tens: 6 + 7 + 1 = 14. Write 4, exchange 1 hundred
3. Hundreds: 5 + 2 + 1 = 8
4. Thousands: 2 + 3 = 5, so the answer is 5 842

I do: example 3

I do

Work out 4 795 + 2 638

1. Ones: 5 + 8 = 13. Write 3, exchange 1
2. Tens: 9 + 3 + 1 = 13. Write 3, exchange 1
3. Hundreds: 7 + 6 + 1 = 14. Write 4, exchange 1
4. Thousands: 4 + 2 + 1 = 7, so the answer is 7 433

Mini whiteboards

We do

1. 1 326 + 2 451

Answer: 3 777

2. 3 487 + 2 356

Answer: 5 843

3. 2 045 + 3 638

Answer: 5 683

4. 4 567 + 3 789

Answer: 8 356

You do: choose your challenge

You do

Bronze

Work out 2 413 + 3 152

Silver

Work out 4 286 + 2 547

Gold

A cinema sold 1 879 tickets on Saturday and 2 486 on Sunday. How many altogether?

Platinum

Use the digits 1 to 8 once each to make two 4-digit numbers with the largest possible total.

You do: answers

Check

Bronze

5 565

Silver

6 833

Gold

4 365

Platinum

e.g. 8 642 + 7 531 = 16 173

If you finish early

Extra

Bronze

Work out 3 214 + 1 563

4 777

Silver

Work out 2 678 + 4 159

6 837

Gold

A farm has 3 456 hens and 2 789 ducks. How many birds altogether?

6 245

Platinum

Find the missing digits: 2 4□6 + 1 □38 = 3 914

2 476 + 1 438 = 3 914

Test-style question 1

2 marks

A school has 2 375 books. It buys 1 648 more. How many books does it have now?

Space for working

Mark scheme: 2 375 + 1 648 (1) = 4 023 (1)

Test-style question 2

2 marks

Work out 3 909 + 4 291

Space for working

Mark scheme: Correct column method (1). 8 200 (1)

Objective 1 achieved

Add 4-digit numbers using the column method

Objective 2

Subtract 4-digit numbers using the column method

✓ Achieved: Add 4-digit numbers using the column method

Key idea

Learn

!

Put the bigger number on top and line up the columns. Start with the ones. If the top digit is smaller, exchange 1 from the next column: it becomes 10 in this column.

Objective 2: Subtract 4-digit numbers using the column method

I do: example 1

I do

Work out 5 786 − 2 354

1. Ones: 6 − 4 = 2
2. Tens: 8 − 5 = 3
3. Hundreds: 7 − 3 = 4
4. Thousands: 5 − 2 = 3, so the answer is 3 432

I do: example 2

I do

Work out 6 352 − 2 718

1. Ones: 2 − 8? Exchange 1 ten: 12 − 8 = 4
2. Tens: 4 − 1 = 3
3. Hundreds: 3 − 7? Exchange 1 thousand: 13 − 7 = 6
4. Thousands: 5 − 2 = 3, so the answer is 3 634

I do: example 3

I do

Work out 5 000 − 1 237

1. Exchange across the zeros: 5 000 = 4 thousands, 9 hundreds, 9 tens, 10 ones
2. Ones: 10 − 7 = 3. Tens: 9 − 3 = 6
3. Hundreds: 9 − 2 = 7. Thousands: 4 − 1 = 3
4. The answer is 3 763

Mini whiteboards

We do

1. 4 869 − 1 425

Answer: 3 444

2. 7 314 − 2 586

Answer: 4 728

3. 5 873 − 2 541

Answer: 3 332

4. 6 000 − 2 375

Answer: 3 625

You do: choose your challenge

You do

Bronze

Work out 6 985 − 3 452

Silver

Work out 5 423 − 2 781

Gold

Mum has £4 000. She spends £1 865 on a holiday. How much is left?

Platinum

Find the missing number: 7 205 − ☐ = 3 468

You do: answers

Check

Bronze	3 533
Silver	2 642
Gold	£2 135
Platinum	3 737

If you finish early

Extra

Bronze

Work out 8 769 − 3 527

5 242

Silver

Work out 6 425 − 2 867

3 558

Gold

A book has 1 250 pages. Lily has read 768. How many pages are left?

482

Platinum

Two numbers have a difference of 2 345. The bigger one is 7 000. What is the smaller one?

4 655

Test-style question 1

2 marks

A plane needs to fly 6 250 km. It has flown 3 875 km. How far does it still have to fly?

Space for working

Mark scheme: 6 250 − 3 875 (1) = 2 375 km (1)

Test-style question 2

2 marks

Work out 8 003 − 4 567

Space for working

Mark scheme: Correct method with exchanging (1). 3 436 (1)

Objective 2 achieved

Subtract 4-digit numbers using the column method

Real life

Apply

A school wants to raise £5 000 for new laptops. So far it has raised £2 685. How much more does it need?

£5 000 − £2 685 = £2 315

Extension: stretch yourself

Stretch

1. **Check that 6 352 − 2 718 = 3 634 using addition.**

3 634 + 2 718 = 6 352 ✓ (addition undoes subtraction)

2. **Two numbers add up to 9 000. One of them is 3 456. What is the other?**

9 000 − 3 456 = 5 544

Exit ticket

Exit

1. Work out 3 568 + 2 745 **(1 mark)**

2. Work out 7 204 − 3 659 **(1 mark)**

3. A farm has 4 250 sheep. It sells 1 675. How many sheep are left? **(2 marks)**

Exit ticket: mark scheme

Mark it

Q1 6 313 [1]

Q2 3 545 [1]

Q3 4 250 − 1 675 (1) = 2 575 (1) [2]

Total: ____ / 4

Today I achieved

- ✔ **Add 4-digit numbers using the column method**
- ✔ **Subtract 4-digit numbers using the column method**

Rate yourself: 1 = still unsure 2 = getting there 3 = confident

Homework

Due next lesson

1. Work out 4 352 + 3 416 [1]

2. Work out 2 687 + 4 548 [2]

3. Work out 8 765 − 4 231 [1]

4. Work out 6 003 − 2 478 [2]

5. A library had 5 230 books. It gave away 1 485, then bought 760 new ones. How many books does it have now? [3]

Extra practice: Corbettmaths Primary → search "Column addition and subtraction"
